

CI-15 Current Interrupter with GPS

Features

- Small light weight current interrupter
- GPS continuously synchronized
- Microprocessor driven
- Flash memory
- Computer programmable
- 5 programmable time schedules
 - ⇒ Interruption cycle
 - ⇒ Start and stop times
 - ⇒ Start and stop dates
- Holds power ON when not interrupting
- Colour coded output terminals
- Comprehensive 2 year warranty

Included

- CI-15 Current Interrupter
- AC charger; 120/240V AC, 50/60 Hz input
- Interruption cables with copper alligator clips and rubber boots
- Magnet mount GPS antenna
- RS-232 null modem cable with USB converter
- Operation manual

Technical Specification

- Capacity: Up to 15A at 50VDC
- Switching: Electronic relay
- Case: IP67 / NEMA 4X plastic case with o-ring seal and locking hasp
- Dimensions: 23cm x 16cm x 10cm (9" x 6" x 4")
- Weight: 2 kg (5 lb)
- Battery: 12V 2.0 amp hour NiMH
- Com Port: RS-232 communication port, 9 pin male
- External Power: Accepts 12V DC external power to supplement battery life
- 5-way binding posts for interruption cables
- GPS synchronized, with magnet mount antenna for easy placement with view of the sky
 - ⇒ Cycle time 1/4 sec to 6 min
 - ⇒ Off time: 0 to 9999mSec (synchronized to the beginning of the minute, 0 seconds)
